

My Debate Thoughts

My time on the debate team was brilliant. I learned how to speak out, how to pronounce my words properly and how to research the internet. I had so much fun getting on the team and learning so many different facts and information. Mr Macklin spent a lot of time working with us on our speeches and preparing us for the crossfire questions and answers.

Thanks to all the staff that helped and encouraged us through the process. I will never forget my time on the debate team.
